

PROJECT PROFILE: 240 Blackfriars, SE1

- **Client:** Great Portland Estates Plc
- **Architect:**
Allford Hall Monaghan Morris
- **Main Contractor:** Mace
- **Stone used:** Blue Savoy marble
- **Value:** £430,000
- **Completed:** March 2014
- **Contract duration:** 12 weeks
- **Scope of work:**
Internal Marble flooring and stone cladding and external paving

As part of the Southbank redevelopment, 240 Blackfriars is a striking, 19-storey tower offering 11,000 sq. ft. of BREEAM 'Excellent' rated office space and 10 luxury apartments.

Putney & Wood was awarded the internal stonework package by the main contractor Mace. The contract included the design, supply and installation of 240 m² of Blue Savoy marble to the main reception and lift lobbies on all 19 storeys. To overcome differential movement concerns relating to the floor build up in the reception, Putney & Wood installed several unobtrusive movement joints to break up the expanse of marble flooring. The package also included York stone paving at the entrance

"Putney & Wood provided a well-qualified team who delivered on time and on budget. They have worked with Mace on many projects and I'm sure they will continue to do so. Good job all round."

Julian Bates – Mace
