

PUTNEY & WOOD LTD

The Stonework Contractor | Contemporary | Traditional

St Paul's School, London W6

Stone Federation of Great Britain
Natural Stone Awards **Highly Commended**

“I’m very happy with Putney & Wood’s work at St Paul’s School, it was challenging project but they performed well. Their workmanship on the stone cladding is of the highest quality and I wouldn’t hesitate to work with them again.”

Liam Donnagher of Mace

Client: **St Paul's School**
Architect: **Nicholas Hare**
Main Contractor: **Mace**
Material used: **Fletcher Bank Sandstone**
Value: **£275,000**
Completed: **January 2013**
Contract duration: **26 weeks**
Scope of work: **External sandstone cladding and benches**

St Paul's School was founded in 1509 and is located on a prominent riverside site in Hammersmith. The new Science Building is a four-storey development with a striking, contemporary main entrance creating a new courtyard housing 18 state-of-the-art laboratories.

Following a highly competitive tender process, Putney & Wood were awarded the external stone cladding contract by Mace the project's main contractor. As part

of the stonework package, Putney & Wood's in-house design team interpreted the architect's conceptual drawings to create detailed drawings of the stonework on each elevation. Following design their project team procured and expertly installed the specified Fletcher Bank sandstone. The stone cladding contract was completed on time and on budget, and with minimum disruption to the day-to-day running of the school.
