good communicators
and provided ideas and
experience.”*

Andrew Dewar of Balfour Beatty

Client:	Cornerstone City Developments?
Architect:	Sidell Gibson Partnership
Main Contractor:	Balfour Beatty Construction Ltd
Material used:	Portland Stone
Value:	£1.2m
Completed:	March 2011
Scope of work:	New Build Stone Cladding

This high profile development on the site of a former bank was originally built circa 1930 and provides 10,800 m² of grade 'A' City office space. Due to its sensitive location opposite the Bank of England, it took over four years to achieve planning consent.

Balfour Beatty appointed Putney & Wood to carry out the external stone package for four new upper floors, while the façade on the lower six floors was retained. The new upper floors were 'Highly Commended' in

the City Heritage Awards. The Chairman of the Panel of Assessors commented "...the refurbishment of 1, Bartholomew Lane to be highly commendable particularly in respecting the façade and in successfully reworking the buildings upper levels". The building achieved a BREEAM rating of 'Excellent'.

Andrew Dewar of Balfour Beatty gave Putney & Wood's project team an average score of over 8 out of 10 for their work on the job.
